DDO/TRO 73/25
12 October 1973

MEMORANDUM FOR: All DDO Division and Staff
Training Officers

SUBJECT : Instructional Material for Use in
Operations Courses

25X1A 1. At a recent conference [REDACTED] the perennial problem of securing up-to-date material for use in operations courses was again raised. Members of the [REDACTED] requested that a continuing search be made for materials which could be used in such courses as the Basic Operations Course and the Advanced Operations Course.

25X1A 2. With the cooperation of the Operations Staff, the [REDACTED] has on hand at present a good selection of items in the general intelligence field, such as intelligence reports and cables, SITREPS, [REDACTED] and CRITICS. It would be appreciated, however, if training officers of DDO components would be alert to select book cables, book dispatches, operational reports and other materials which could be sanitized for use [REDACTED] Obviously, messages which have more than immediate applicability would be of greater interest than items peculiar to a particular station. Material that can be released can be sent to this office to be forwarded to [REDACTED]
